ABOUT

Hello! I'm Ogün Karaoğlu, a recent graduate of Yildiz Technical University, where I earned my degree in Computer Education and Instructional Technology. My dedication and passion for technology have been the driving forces behind my academic and professional journey.

Currently, I am gaining hands-on experience as a backend software developer. This role allows me to apply my theoretical knowledge in practical settings, further honing my skills and preparing me for a successful career in tech.

Throughout my time at university, I have immersed myself in various projects and coursework that have equipped me with a solid foundation in computer science and instructional technology. My experiences have not only broadened my technical expertise but also fostered a collaborative and innovative mindset.

I am excited to continue learning and growing in the field of technology, and I am eager to contribute to the success of any team I am a part of. Let's connect and explore the possibilities of technology together!

EDUCATION - EXPERIENCE

08.2019 – 06.2024

Yildiz Technical University

Graduated in Computer Education and Instructional Technology

01.05.2024 – 28.06.2024

DZD TECH Backend Software Developer Intern

During my 2-month internship as a backend software developer, I used several key technologies. I utilized a code-first approach with Entity Framework for efficient database management. I also worked with ADO.NET for data access and Swagger for API documentation and testing. Additionally, I gained experience with Blazor for building interactive web UIs and MudBlazor for enhancing UI components. These tools helped me gain practical experience and enhance my backend development skills.
